**Entropy in the positive quadrant**

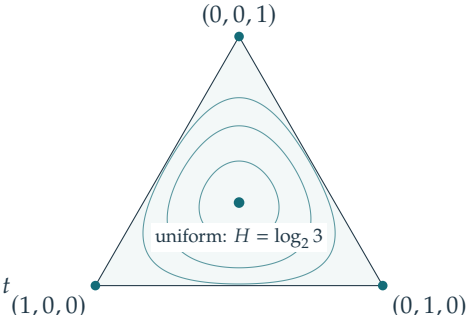

$H_2(p_1, p_2) = -p_1 \log_2 p_1 - p_2 \log_2 p_2$

**Restriction to $p_1 + p_2 = 1$**

Two symbols: maximum at $(1/2, 1/2)$.

**Three-symbol simplex**

Vertices: $H = 0$; inner contours: increasing $H$.
