

Data covariance

$$C/n = U \operatorname{diag}(\lambda_i) U^\top$$

Quadratic level sets

$$\langle Cx, x \rangle / n = \text{constant}$$

Semiaxes: $r\sqrt{\lambda_i}$ (left), $r\sqrt{\lambda_1\lambda_2}/\sqrt{\lambda_i}$ (right), $r = 1, \frac{3}{2}, 2$.
